Welcome to Library 004. This course will provide you with opportunities to develop research skills and learn the core concepts of information literacy. You will learn the essential techniques to finding, evaluating, analyzing and presenting information - key skills for a successful college career.

COURSE OBJECTIVES

Upon completion of the course you will be able to:

- Describe a variety of information sources
- Develop an understanding of and appreciation for the research process
- Develop and modify a search strategy for finding information using access tools
- Evaluate information for its authority, relevancy & quality in relation to a research topic.
- Recognize the strengths and weaknesses of the Internet as a research tool
