

- We Valley College is a community of learners who are seeking advanced educational opportunities. Our facilities, staff, and students have a strong commitment to learning, fueled by the spirit of innovation. The College embraces innovation and change characterized by confidence, and accountability. Through open communication, collaboration, and acceptance for one another, shared decision making through collaboration and teamwork, and a respect for diversity, We Valley College affirms its commitment to people.

West Valley College is focused on meeting the needs of its diverse student population and providing multiple pathways to success. The Facilities Master Plan responds to this commitment by providing an excellent environment for student success as stated in the following aspirations approved by the Board of Trustees.

West Valley College's philosophy was articulated after extensive dialogue among members of the College community. The College's Statement of Philosophy is as follows (adopted March 8, 2007):

- We Valley College is a community of learners who are seeking advanced educational opportunities. Our facilities, staff, and students have a strong commitment to learning, fueled by the spirit of innovation. The College embraces innovation and change characterized by confidence, and accountability. Through open communication, collaboration, and acceptance for one another, shared decision making through collaboration and teamwork, and a respect for diversity, We Valley College affirms its commitment to people.
- During the 2015-2016 academic year, the College plans to review its mission and develop its annual goals based on the Educational Master Plan.
- The We Valley College community is committed to rising along with each other and achieve goal in an environment of
